

Repair Leaking Sump Lids with Rhino Tite

by

RHINO TUFF

Tank Sump Lid Retrofit Kit

- Are your pump and electrical conduits corroding in your tank sump because of leaking lids?
- Tired of your annual pump out costs and worried about contamination and potential fines?
- Have water sensor alarms been a frequent problem for your business?

RHINO-TITE IS THE SOLUTION

Product Highlights:

Quick Installation. Typically less than one hour per lid.

No Need to Break Concrete

*For use on Poly & Fiberglass Sumps to
Sump Sizes up to 37" I.D.*

Save \$\$ on Fines and Pumping Costs

8" Inspection Cap with
1/4 Turn Threads & Viton Gasket

Lid Cover with 1/4 turn Threads & Gasket

100% Rugged & Durable Polyethylene Construction

Features:

- ▶ 8" removable inspection cap with ¼ turn threads and Viton gaskets
- ▶ 30" lid cover securely locks to collar with ¼ turn threads and Viton gasket
- ▶ 30"-33" outside diameter sump collar bonds to existing fiberglass or polyethylene sumps
- ▶ Easy to install and fits most standard sump openings
- ▶ Lid can be used with multiple sized Rhino-Tite collars
- ▶ Easy grasp turning handles eliminates need for tools and loose hardware
- ▶ Trimmable collar allows for flexible lid height
