

NEW!

Portable Bulk DEF Transfer System

SPATCO®'s new Bulk DEF Transfer System offers easy and economical fluid dispensing and transfer for DEF distributors. Our compact skid is designed to sit in your existing box truck or on a small trailer, and can also be customized to fit your specific needs.

Both our mechanical and electronic systems include a Weights and Measures certified piston rotary meter and register; one of the only meters manufactured to ISO 22241 standards.

Features:

- Gas or Diesel engine operation
- Weight and Measure approved
- Manual resettable totalizer
- 5 micron filter
- 50' heavy duty chemical hose
- 12V powered stainless steel hose reel and auto-start for engine
- Dispensing/Transfer Flowrate = 40-75 GPM

Options:

- 120V generator system
- 75' heavy duty chemical hose
- Ticket/receipt printer
- 2" stainless steel dry disconnect

Benefits:

- Portable and compact
- Closed loop filling of drums, totes, or mini bulk tanks
- 12V system utilizes trucks power supply to run hose reel and engine start

The SPATCO® DEF Bulk DEF Transfer System is available for purchase by calling (866) 9 SPATCO.

ABOUT SPATCO® DEF

SPATCO® has been an industry leader since 1935, providing a complete line of equipment and services for storing, pumping, mixing, and metering petroleum and industrial liquids.

Our customers include commercial and private fleets, municipalities, school and city bus garages, trucking companies, agriculture, construction, and retail truck stops.
