PRESS RELEASE:

WindPartners Finance (“WPF”) is pleased to announce Acterra Group, Inc. (“Acterra”) has joined WPF’s Alliance Partner program. A company of Acterra’s stature is a valuable addition to our team as we continue to build out our nationwide program for distributed generation wind projects. Acterra will provide the necessary expertise relating to project and construction management required for WPF wind projects. WPF goal is to streamline project development for our clients with Acterra becoming a key part of that goal. Acterra joins our team of Alliance Partners allowing WPF to provide a complete package of advisory services to the distributed generation wind market.

Tad Cooper, Executive Vice President of Acterra remarked, “We’re very enthusiastic about becoming an Alliance Partner with WindPartners Finance. With WPF’s ability to provide wind turbines along with financing for projects, many distributed generation projects will become a reality moving many organizations to using clean, renewable energy. By WPF combining with Acterra’s capabilities we can now streamline the entire process for distributed generation projects.”

WPF combines turbine, financing and resources as one package to achieve lower overall project costs to allow projects to be successful. WPF is also diligently working with financial sources to structure a leasing program for wind projects.

Feel free to contact us at 612-371-2040, or Tad Cooper-Executive VP at Acterra Group (319) 377-6357.
