

Bulk Storage Systems

When Experience Matters

Acterra manufacturing works with a variety of industries to meet unique storage needs. We have supplied tanks and silos for many different applications including cement, feed, plastics, fertilizers, and chemicals to name a few. We can design and build what you need no matter what the application and environment.

Bulk Storage

Our products are used extensively for storage needs in the agricultural, commercial, aviation, and petroleum industries. Products include our hopper bins and numerous custom designed tanks and silos.

- Storage tanks for plastic Resin, Powder, and Flakes.
- Sand Storage: Frac sand, Bunker sand and Blasting sand.
- Cement, Fly Ash, and bulk material silos.
- Liquid storage for Chemicals, Water, Fertilizer and Oils

Custom Applications

The Acterra team can assist you in designing systems for nearly any type of flowable liquid or dry product. With over 40 years in the business of steel manufacturing we can assist you with the storage of industrial commodities.
